From Thursday *November* 12. to Monday *November* 16. 1685.

*Genoua, Novemb.* 6.

THIS week arrived here the *Charles* from *Cadiz* and *Alicant*, and the *Lucy* Ketch from *Legborn*. The Spaniſh Gallies are ſtill here, but will part from hence in few days for *Naples*, where they are to Winter. The Governor of *Milan*, who has been all this week entertained, by Signior *Spinola* in his Palace at St. *Pier d' Arena*, came this Evening into the City, and is lodged at the Carmelites; It's ſaid he has Pretentions upon the Republick for the Troops he raiſed at their deſire during the late differences with *France*.

*Venice, Nov.* 2. On Wedneſday laſt arrived here a Tartane with Letters of the 11th of the laſt month from the Fleet, which was then at *Porto Cittero*, They tell us, That the Captain General having demoliſhed *Calamata*, a place that by reaſon of its ſituation could not be well defended, he ſailed from thence with part of the Fleet to *Porto Vitulo*, which the *Maynotes* had ſome days before made themſelves Maſters of; That the Captain General having landed with his Forces, marched towards *Chielifa*, a ſtrong Fortreſs ſituated on a Rock about two miles from *Porto Vitulo*, in which was a Gariſon of 300 Turks commanded by *Aſſan* Baſſa, Governor of the whole Province of *Mayna*, who upon the approach of the *Venetians* ſent an Officer to the Captain General to Capitulate; That Articles were accordingly agreed on, and that in purſuance of them the Turks marched out with their Arms, Bag and Baggage, leaving in the place 55 pieces of Cannon, and good ſtore of Ammunition and Proviſions, and according to the Capitulation were to be conducted to *Vatica*, but the ſaid Baſſa choſe rather to remain in the *Venetian* Camp; After which the Captain General ſent a Detachement to *Paſſava*, a Fortreſs ten miles farther in the Country; There were in it 200 Turks, who no ſooner heard of the ſurrender of *Chielifa*, and the march of our Troops towards them, but they reſolved to abandon the place, which they accordingly put in Execution; ſo that the Forces of the Republick are now poſſeſſed of the whole Province of *Mayna*, of which the Captain General has made Signior *Lorenzo Venier* Governor. And we are aſſured, that above 12000 *Maynotes* have already put themſelves into the Service of this State.

*Cracow, October* 18. The King of *Poland*, upon the advice he received from the Crown General, has ſent the following Orders to all the Palatinates of this Kingdom.

*Whereas Our Army which is entred into* Moldavia, *by reaſon ſeveral Regiments that ought to have joyned it are not yet arrived in the Camp, and that the new Levies are not in that order, nor do amount to the number that was expected, is expoſed to great danger, the Enemy, with whom they have had continual Skirmiſhes from the firſt to the ſixth of this month, though without any advantage on the ſide of the Infidels, very much exceeding them in number, and being dayly reinforced by freſh Troops, as well under the Orders of the Seraſquier* Solyman, *as the Cham of* Tartary, *and Sultan* Galga, *ſo that the ſucceſs of a Battle, which can hardly be avoyded, is much to be feared, to prevent thereof the damage which our ſaid Forces, and conſequently the whole Kingdom may otherwiſe ſuſtain; We do Command and require all the Militia, which ought in ſuch occaſions to follow Our Standard, to march day and night from the moment that they have knowledge of this Our Command, towards the Bridge on the* Nieſter, *whither we intend to go in Perſon, if there be need of it, to encourage our Forces, exhorting in the mean time our ſaid Militia, for the Love of their Country, the diſcharge of their Duty, and the Common good of Chriſtendom, immediatly to obey theſe our Orders, in the doing whereof they will recommend themſelves to our Royal Favour; but on the contrary, if they fail therein, will not only incur Our high diſpleaſure, but oblige us to proceed againſt them with the utmoſt Severity.*

*Given at* Giulkiew *the* 12th *of* October, 1685.

In purſuance of theſe Orders, the Militia of the Adjacent Palatinates, have already begun their march, and divers of the Nobility are preparing to attend the King, who is gone to *Zokiew*, from whence he will remove nearer to the Frontiers, as there ſhall be occaſion.

*Warſaw, Octob.* 18. The Letters from *Lemburgh* tell us, that the Forces of this Crown have obtained a great Victory againſt the Enemy; All the particulars they give us, are, that the Battle was on the 10th inſtant, that the fight laſted five hours, that 1200 of the Enemy were ſlain, and many Priſoners taken, (among which were ſome of the Chief Officers of Sultan *Galga*) with ſeveral Standards and the beſt part of their Baggage; The joy of which news is the greater, for that we received it at a time that there was more reaſon to fear the loſs of our whole Army, the Enemy being treble their number, and having ſo environed them, that they could not retreat without great difficulty and hazard. We have advice that the Coſſacks in the ſervice of this Crown, have taken the Town of *Farolick*, on the *Nieſter*, the Gariſon which conſiſted in 1200 Men, being moſt of them cut in pieces, and the reſt with their Commander in Chief made Priſoners.

*Vienna, Novemb.* 5. The Campagne is ended in Upper *Hungary*, by the ſurrender of *Caſchaw*, and ſeveral other places, that were poſſeſſed by the Rebels; General *Caprara* carryed on the Siege with great vigor, but on the other ſide, the Rebels made
